what we see

The TruGolf Simulator is the brainchild of a group of golfers, game developers, and software engineers who share a passion: to design a simulator that *improves playing skills* by recreating the true look, touch, and feel of golf. We blend this experience into the design of your home, creating a unique first-class amenity with multiple uses that can be enjoyed by everyone.

Our team brought the LINKS™ series of computer golf games to life. We also develop the best-selling software for commercial golf simulators. After years of working with golf professionals and teaching pros and building the world's most accurate software, we now have the most *lifelike golf experience* for the home. Our system truly brings the feel of the glorious game of golf indoors.

what is paradise?

To some, it's stepping up to the 17th tee on one of the great golf courses of the world, executing a perfect shot, and watching the ball come to rest a few inches from the pin...

To others, it's having a sanctuary inside their home, offering an escape from the hustle and bustle of life and a way to enjoy sharing quality time. *What if you could create a special place that could accomplish both?* A place where serious golfers can get useful feedback to improve their game, play eighteen holes, or a place where family members want to hang out and invite their friends to play and relax together...

those who've seen it

The TruGolf Simulator has been great for our family. My husband spends much of the year traveling for his business but his real passion is his family and golf. Because of his desire to be the best, he would spend much of his free time at the course and practice range. Now he can practice his game at home and spend time with the children on improving their game without ever leaving the house.

*Troy and Natalie Crosland Family
Sandy, Utah*

"In my many years in the golf industry, I have never used a more realistic golf simulator. Many of the simulators out there are more similar to playing a video game loaded with inaccurate data and designed with poor graphics. But not the TruGolf Simulators... I feel the TruGolf system is the closest one can get to actually playing on a golf course."

*Kevin Alexander
Golf Today Magazine*

TruGolf makes these dreams of paradise a reality by providing an incredible golf experience and giving the family activities that they can stay home to enjoy!

improve your game

How does it all work?

When you swing and strike the ball, our tracking system instantly collects key information about your shot including club head speed, club path, face angle, as well as ball speed, launch and direction. This data is analyzed instantly as the ball appears on the golf screen and flies down the fairway – just as it would on the real course! Our graphics and ball flight physics software produce *imagery so real*, you experience the true look, touch and feel of golf.

feedback

In addition to having a typical driving range and practice facility in your home, you are able to *obtain data not available at your favorite course*.

practice

putting

Our Simulator will dramatically improve your touch on the putting green. Adjust the green to hard, moderate, or soft conditions. The life-like feel teaches you to read break, speed, and distance like a PRO!

chipping

Need practice chipping up and down hill?

The TruGolf Simulator is a great tool to improve your short game!

driving range

See how small changes in your swing mechanics can affect distance and ball speed. Experiment with changes in grip, ball position, and stance.

visual

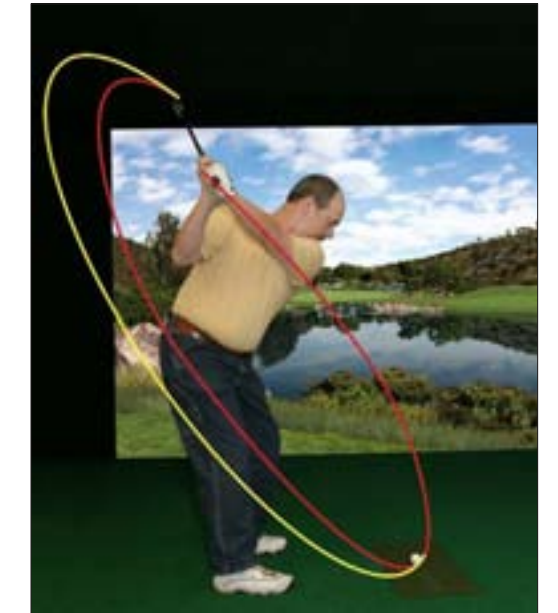

Ball flight tracers show in 3 separate views.

4 distinct colors allow you to visualize technique results.

Statistical printouts will help you monitor your progress.

video capture

With our optional video capture system, you can carefully analyze your actual swing. Combine this with extensive shot statistics and world renowned ball flight to find your "A-Game".

the eye of the beholder...

Close your eyes for a moment and visualize the most beautiful place in the world... Is it a lush green island set in the middle of the ocean? Perhaps its high in the Canadian Rockies or somewhere in the southwest as the sun fades and sets fire to the desert sandstone. Chances are, your vision of beauty is near one of our great golf resorts.

What if you could go to one of these locations every day?

We can transport you to many of these incredibly beautiful locations throughout the world.

Nowhere else will you find such a wide selection of the world's most famous and exclusive golf courses — all beautifully and accurately produced down to the slightest detail.

To achieve this quality, we use digital technology to capture all features of each course. GPS and aerial photography recreate the terrain and subtle nuances of each property. We then use our *exclusive world modeling tools* to achieve pin point accuracy and an incredible degree of detail.

Our courses encompass actual elevation, wind, and green conditions which create a level of realism that is truly the next best thing to being there.

destinations

The courses available with our simulator are listed below. New destinations added periodically.

St. Andrews Actual Photo

paradise in your home...

customizable

Because your home is probably the biggest single investment you will make, amenities built into it should enhance its beauty and value. We strive to design an environment that envelops you in a world that reflects your style and intergrates perfectly into the motif of your home. By working closely with your Architect, Designer, or Contractor, we *create a special oasis* that is a beautiful place to play, entertain, and escape.

life lessons

Even with technological advances, golf is played much the same way it was centuries ago. More importantly, the principles of integrity, respect and sportsmanship continue to thrive in golf, even as they diminish in other sports. What better way could there be to teach the generations to follow the importance of *honor and tradition*?

practice facility

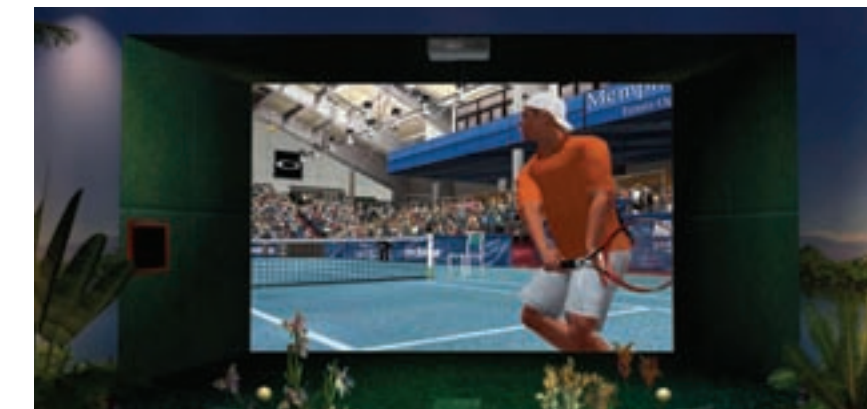

Golf is a game that can be played throughout your life at the most beautiful locations in the world. It is the sport of the business world; it's where executives meet to make the deals. The TruGolf Simulator features a "Practice Mode" — the most convenient and timesaving way to improve your skills and to *hone a competitive edge* for real world opponents. It is a hassle free way to work on each aspect of the game any time of the year. Once the practice session is over, the challenge of the greatest courses in the world is available at the touch of a button.

video game arena

Your family will be the envy of all the PC and video game players in the neighborhood when the TruGolf Simulator becomes the *ultimate gaming arena* for enthusiasts. With its huge screen, players pit their skills against life-sized opponents, bringing the competition to a whole new level.

at the movies

Your TruGolf Simulator also functions as a home theater. When you've completed your round for the day, pop in a DVD or watch network programs or *sporting events* on the big screen.

commercial applications

The TruGolf Simulator is a great way to *increase the profitability* of golf related businesses. It's perfect for club-fitting at golf shops, teaching and instruction, or for letting your customers compare different brands of equipment. In addition, it is a powerful draw for trade shows and public events.

The TruGolf Simulator is perfect for:

- | | |
|--|----------------------|
| Colleges and University Golf Teams | Pro Shops |
| Resorts, Hotels, Spas, Casinos | Instruction Centers |
| Public and Private Recreational Facilities | Cruise Ships |
| Course Designers and Architects | Business Trade shows |
| Sports Bars and Private Clubs | |

"When you're not practicing, remember that someone, somewhere, is, and when you meet him, he will win."
- Ed MaCauley

"The TruGolf Simulator is a great teaching and training system. Accurate feedback from the simulator has helped me elevate aspects of my game I was unable to improve before."
- Henry White, PGA Professional
Utah Section Player of the Year 2002-2004

Play golf... It's a great way to improve your business skills, to learn how to maneuver. It can even be equated with learning how to negotiate, which is an art in itself.
- Donald Trump

TruGolf Simulator specifications:

The TruGolf Simulator has been uniquely designed for quick and easy installation and long-lasting play. The sturdy 750 lbs. enclosure is made of a lightweight aluminum, bolted firmly together and covered with carpeted panels. The raised floor is covered with a putting turf that gives you the true feel of actual course play.

Standard Simulator Includes:

- Paneled golf booth (15'Wx12'Dx10'H)
- High impact golf screen 9'x12' with black canvas light blocker
- HDTV High resolution LCD projector
- XGA Touch screen monitor
- Powerful Pentium 4 computer system
- Proprietary club and ball tracking system
- Raised floor covered with simulated putting turf
- Right/Left stance hitting mat
- Latest LSGolf software which includes:
15 award-winning Links Championship Courses and multiple location practice area. Additional course packages available.
- Professional installation
- Limited One Year Parts and Labor Warranty
